SUMMARY

Cloud DevOps Engineer with experience delivering secure, automated, and scalable infrastructure solutions across Azure and OpenShift environments. Skilled in infrastructure-as-code using Terraform, PowerShell, and GitHub Actions, with a strong focus on cloud governance, compliance, and the optimisation of development and deployment workflows. Experienced in containerisation and orchestration using Docker and Kubernetes, and contributing to CI/CD processes through Azure DevOps and Git-based pipelines. Recent work includes supporting enterprise cloud transformations, building automated learning modules, and contributing to implementation guides that enhance organisational cloud maturity.

WORK EXPERIENCE

Cloud Devops Engineer Aug 2025 - Present
Vivicta Sweden

- Supported Azure cloud and DevOps environments, focusing on infrastructure automation, CI/CD, cloud operations, and platform reliability.

Cloud Devops Engineer Aug 2023 - Aug 2025
TietoEvery Sweden

- Delivered Azure platform engineering across enterprise environments, working with Terraform, Azure DevOps, Kubernetes/AKS, monitoring, automation, and cloud governance.

AWS Technical Specialist Nov 2022 - Aug 2023
Volkswagen Finans Sverige Sweden

- Supported AWS infrastructure and CI/CD, contributing to Terraform-based automation and GitHub Actions workflows to improve cloud deployment and operations.

Video Editor Apr 2012 - Aug 2023
Frekvens produktion Sweden

- Produced and edited video content, managing media assets and technical production workflows.

SKILLS

- Azure
- AWS
- Docker
- Podman
- Linux
- Terraform
- Kubernetes
- GitHub Actions
- Active Directory (AD)
- OpenShift
- Azure DevOps
- Red Hat OpenShift
- Platform, Performance optimization
- Azure API Management
- DevOps
- Azure Pipeline
- Azure Kubernetes Service (AKS)
- Azure Update Management
- Azure Backup
- Azure Monitor
- Azure AI
- GitHub Copilot
- AI Agents & Agentic AI (hands-on learning)
- Microsoft Copilot
- Azure AD Connect
- Azure Active Directory
- Crossplane

EDUCATION

Cloud & IT-Infrastructure Engineer
Lernia Yrkeshögskola
Sweden Sep 2021 - Jun 2023

Bachelor's degree in Pedagogy
Pamukkale universty
Turkey Jun 1998 - Jun 2002

CERTIFICATES

Microsoft Certified: Azure Administrator Associate
Microsoft

WORK EXPERIENCE

Teacher Oct 2002 - Oct 2012
Ministry of National Education Turkey

- Planned and delivered classroom instruction, developed learning materials, and supported students through structured teaching and assessment.

Satellite Installation Technician Sep 2003 - Jun 2005
Digiturk Turkey

- Installed, configured, and maintained satellite TV systems, troubleshooting signal, cabling, and customer equipment issues.

SELECTED CLIENT EXPERIENCE

AIBEL Cloud / Platform Engineering
Azure · Terraform ·
Kubernetes · Azure DevOps

- Worked on Azure platform engineering for Aibel, focusing on managing and improving Kubernetes clusters while delivering design and architecture updates to enhance the platform's structure and reliability. Contributed to operational improvements across the Azure environment by refining deployment workflows, strengthening governance, and supporting continuous platform development.

MTG Cloud / Platform Engineering
Azure · Terraform

- Focused on platform engineering for MTG, including creating alert baselines, configuring Azure Update Manager, and improving operational reliability. Recently contributed to Terraform auto-discovery to streamline infrastructure management.

MABI Cloud / Platform Engineering
Azure

- Worked on Azure platform engineering for MABI, with key responsibilities including alert baseline setup, Azure Update Manager configuration, and infrastructure automation.

M4 GRUPPEN Cloud / Platform Engineering
Azure

- Delivered platform engineering tasks such as implementing alert baselines, managing Azure Update Manager, and contributing to cloud automation.

CERTIFICATES

Microsoft Certified: Azure Solutions Architect Expert

Microsoft

Microsoft Certified: Azure Fundamentals

Microsoft

AWS Certified Cloud Practitioner - Foundational

AWS

Red Hat Certified OpenShift Administrator

Redhat

LANGUAGES

- English
- Swedish
- Kurdish
- Turkish

INTERESTS

- Film Making
- Music
- Photography

SELECTED CLIENT EXPERIENCE

INNTRÉ HOLDING Cloud / Platform Engineering
Azure · Terraform · Azure
DevOps

- Worked on platform engineering for Inntré, focusing on improving cloud automation and deployment workflows. Contributed to CI/CD enhancements in Azure DevOps and supported Terraform-based infrastructure development, enabling more consistent provisioning and smoother delivery processes. Designing and updating the Azure topology to improve structure, performance, and governance.

BERGENE HOLM Cloud / Platform Engineering
Azure · Terraform · Azure
DevOps

- Worked on platform engineering for Bergene holm, focusing on improving cloud automation and deployment workflows. Contributed to CI/CD enhancements in Azure DevOps and supported Terraform-based infrastructure development, enabling more consistent provisioning and smoother delivery processes. Designing and updating the Azure topology to improve structure, performance, and governance.

SERVICEGROSSISTENE Cloud / Platform Engineering
Azure · Terraform · Azure
DevOps

- Worked on platform engineering for Servicegrossistene, focusing on improving cloud automation and deployment workflows. Contributed to CI/CD enhancements in Azure DevOps and supported Terraform-based infrastructure development, enabling more consistent provisioning and smoother delivery processes. Designing and updating the Azure topology to improve structure, performance, and governance.

STOKKE Cloud / Platform Engineering
Azure · Terraform · Azure
DevOps

- Worked on Azure platform engineering for Stokke, focusing on improving cloud structure, reliability, and operations. Contributed to platform documentation, managed virtual machines, and handled certificate management to ensure secure, stable, and well-governed platform operations.

SELECTED CLIENT EXPERIENCE

WOLKSWAGEN FINANS SVERIGE Cloud / Platform Engineering

Aws · Terraform · GitHub Actions

- Worked on AWS platform support and engineering for Volkswagen Finans Sverige, contributing to CI/CD improvements and Terraform-based infrastructure automation using GitHub Actions.
